WORK EXPERIENCE

Security Guard @ Trust 06/2022 - 08/2023

- Conducted systematic patrols and vulnerability assessments, honing the meticulous eye for detail I now apply to code reviews and automated health checks
- Managed strict access control for staff, customers, and vehicles—experience that translates directly into designing authentication, authorization, and role-based security in software.
- Secured premises and filed incident reports, habits mirrored today in disciplined deployments.

Retail Stock @ Continente 05/2019 - 12/2020

- Tracked breakages and donations end-to-end
- Filled cashier shifts, processing rapid, error-free transactions
- Coordinated restocks, translating inventory-flow optimisation into efficient task scheduling
- Resolved customer issues making me notice the importance of being customer centered
